ionic

What's Ionic?

It's Angular powered for mobile.

```
var options = {
   quality: 90,
   allowEdit: true,
   encodingType: Camera.EncodingType.JPEG
};
$cordovaCamera.getPicture(options).then(
   function(imageData) {
      var image = document.getElementById('m
```

```
    image.src = ""
  }, function(err) {
    $cordovaToast.show('Error!', 'long', '
  }
);
```
